## SEEDS, ETC.

131 and 133 West Second Street

MUSCATINE, IOWA

**1911**  

### TO OUR CUSTOMERS

We will Sell YOU GOOD SEEDS at Low Prices

Owing to high price of labor, and scarcity of good help, combined with high price of land, has caused the growers to advance their growing prices. There was almost a failure of some varieties of Peas, Cucumber and Melon last year and prices higher. Many sorts are very scarce and will be higher than heretofore. If seeds can be purchased for less money we want to know it, and we will fill orders as LOW, or LOWER than any seed firm in the country, if we have the seeds to do it. It is our ambition to keep in touch with our customers, and not be undersold by other dealers. All of our seeds are grown by the best growers in this country and Europe—and we sell them at a very small profit. We wish you would compare our prices with those of other dealers, so you will not feel that we want unreasonable prices. We have increased facilities for filling orders. We solicit YOUR orders as soon as possible after receiving this catalog, so there will be no delay during the spring rush of orders.

Respectfully yours,

**THOMPSON BROS. CO.**

Muscatine, Iowa

## NOTICE!

Our seeds have been very free from injury by mistakes of growers and work hands, but owing to a possibility of errors, or failure of seeds to grow, over which we have no control, we hereby in common with all other Seedsmen, give no warranty, express or implied, as to description, purity or productiveness of any seeds we sell. Therefore, subject to the above conditions and by reason thereof, we have made very low prices. If the purchaser does not accept them on these terms, they must be returned at once and the amount paid for them will be refunded.

## WHAT WE PAY POSTAGE AND EXPRESS ON

We pay postage and express charges, except when selected from the wholesale list, or by the  $\frac{1}{8}$  bu.,  $\frac{1}{4}$  bu.,  $\frac{1}{2}$  bu. or bushel.

When a quantity is ordered at wholesale, we reserve the right to enclose in the package such smaller packets as may be included in the order. For this privilege we add extras to well satisfy our customers, and the addition of the packets does not increase transportation charges.

## THE BEST WAY TO REMIT MONEY

When making a remittance, please do not send checks on local bank, because it costs too much to collect them.

All remittances must be made with the orders, either by Post Office Money Order, Express Order, Bank Draft on New York or Chicago, Registered Letter, or any approved method.

Be sure to sign address plainly.

# Wholesale Prices to Large Planters

The purchaser must pay transportation charges when ordered from these prices. No charge for Sacks or Boxes.

## WE PREPAY POSTAGE OR EXPRESS

ON ALL SEEDS FOLLOWING THIS—except when ordered by the  $\frac{1}{8}$  bu.,  $\frac{1}{4}$  bu.,  $\frac{1}{2}$  or bushel.

 See Note on first page.

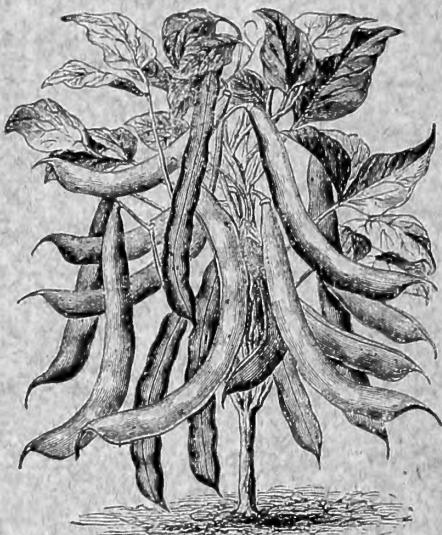

### Giant or Palmetto Asparagus

A very large, early, rapid growing variety; producing even perfect shape roots in abundance. It is well adapted to every State. Grows soon from seed. 1 lb. 45c;  $\frac{1}{2}$  lb. 25c;  $\frac{1}{4}$  lb. 15c; oz. 6c; pt. 4c.

### Conover's Colossal Asparagus

A very large valuable variety. Make the soil rich and stir it deep. It is one of the best, large hardy varieties that we have. Sprinkle in the ground with salt in the spring and keep soil moist. 1 lb. 45c;  $\frac{1}{2}$  lb. 25c;  $\frac{1}{4}$  lb. 12c; oz. 5c; pt. 3c.

### Keeney's Rustless Golden Wax Beans

Productive, hardy, golden, waxy, stringless, meaty, well filled pods.  $\frac{1}{2}$  bu. \$2.59;  $\frac{1}{4}$  bu. \$1.30;  $\frac{1}{8}$  bu. 70c; qt. 34c; pt. 18c;  $\frac{1}{2}$  pt. 10c.

### Wardwell's Kidney Wax Beans

Very hardy, robust plants, with large, kidney-shaped beans, closely filled into large, golden waxy pods. One of the finest early wax varieties for the market, shipping or the family garden. Does not rust and is free from disease.  $\frac{1}{2}$  bu. \$2.50;  $\frac{1}{4}$  bu. \$1.30;  $\frac{1}{8}$  bu. 70c; qt. 34c; pt. 18c;  $\frac{1}{2}$  pt. 10c.

**When ordering** Peas, Beans and Corn, we wish you would remember that we do not prepay transportation on any of them at the rate given by the bushel,  $\frac{1}{2}$  bushel,  $\frac{1}{4}$  bushel or  $\frac{1}{8}$  bushel. We make no charge for sacks or boxes. We pay on quart, pint, and  $\frac{1}{2}$  pint, except wholesale.

### Crystal White Wax Beans

Pods are a beautiful ivory white, good size, round shaped and fleshy. Grows quick, slow to harden and remains succulent and juicy a long time. Good producer.  $\frac{1}{2}$  bu. 75c; qt. 35c; pt. 18c;  $\frac{1}{2}$  pt. 10c.

### Challenge Black Seed Wax Beans

There is no doubt but this is one of the best of the wax varieties. It is stringless, and has round, tender, fleshy pods of a golden yellow color. Are very nice for pickling and canning. Bu. \$4.50;  $\frac{1}{2}$  bu. \$2.50;  $\frac{1}{4}$  bu. \$1.30;  $\frac{1}{8}$  bu. 70c; qt. 34c; pt. 18c;  $\frac{1}{2}$  pt. 10c.

### Improved Round Pod Valentine Beans

Very popular with market gardeners; is an improvement on the old variety. A week earlier; plants uniform; has but few leaves. One of the best green pod varieties for both family use and market. Splendid for shipping and fine for pickling. Bu. \$4.00;  $\frac{1}{2}$  bu. \$2.10;  $\frac{1}{4}$  bu. \$1.10;  $\frac{1}{8}$  bu. 60c. Mail, qt. 30c; pt. 16c;  $\frac{1}{2}$  pt. 9c.

### Davis White Kidney Wax Beans

A vigorous grower and carries the pods well up from the ground. Very productive, and pods long, straight waxy-white and surely rust-proof. Fine for shipping.  $\frac{1}{4}$  bu. \$1.30;  $\frac{1}{8}$  bu. 70c; qt. 35c; pt. 18c;  $\frac{1}{2}$  pt. 10c.

### Currie's Rust Proof Wax Beans

Large, prolific and rust-proof as any can be. Perfectly stringless and crisp.  $\frac{1}{2}$  bu. \$2.50;  $\frac{1}{4}$  bu. \$1.30;  $\frac{1}{8}$  bu. 70c; qt. 35c; pt. 18c;  $\frac{1}{2}$  pt. 10.

### Extra Early German Black Seed Wax Beans

A fine bush sort, with round fleshy pods which are golden yellow and stringless. Its good quality and productiveness makes it a desirable sort for both market and family gardens. Bu. \$4.90;  $\frac{1}{2}$  bu. \$2.50;  $\frac{1}{4}$  bu. \$1.30;  $\frac{1}{8}$  bu. 70c; qt. 34c; pt. 18c;  $\frac{1}{2}$  pt. 10c.

### Bush Golden Wax Beans

This has beautiful golden, stringless pods and bears well. Quite hardy and early. Is rust-proof and pods are long and brittle. It is the standard sort for both market and family.  $\frac{1}{2}$  bu. \$2.50;  $\frac{1}{4}$  bu. \$1.30;  $\frac{1}{8}$  bu. 70c; qt. 34c; pt. 18c;  $\frac{1}{2}$  pt. 10c.

### Burpee's Bush Lima Beans

This is a true large Lima, with the runners dwarfed to a bush form. It is without doubt the most desirable Lima ever introduced. Grows only twenty inches high, branching freely; immense bearer.  $\frac{1}{8}$  bu. 70c; qt. 38c; pt. 20c;  $\frac{1}{2}$  pt. 12c.

### Henderson's Dwarf Lima Beans

This is without doubt the very earliest of all the Lima Beans, but it is not as large as the other Limas, but it is more prolific and produces more than twice as many pods to each plant. The quality is excellent, being rich and delicious. Plants bear continuous.  $\frac{1}{4}$  bu. \$1.30;  $\frac{1}{8}$  bu. 70c; qt. 35c; pt. 24c;  $\frac{1}{2}$  pt. 14c.

## Old Homestead or Kentucky Wonder Pole Beans

Is a very prolific, robust, vigorous growing sort with long, green, nearly round, stringless, succulent pods, and are crisp, tender, and hang from top to bottom in magnificent clusters. Pods are pulpy, rich, luscious and melting. Good for string and shell.  $\frac{1}{4}$ bu. \$1.20;  $\frac{1}{8}$ bu. 65c; qt. 32c; pt. 17c;  $\frac{1}{2}$ pt. 10c.

## King of the Garden Pole Lima Beans

The originator of this improved and valuable variety, claims greater productiveness, and a far more luxurious grower, and furnishes a more beautiful supply of enormous size, tender pods; borne in largest clusters. Very rich, green or dry. Bu. \$5.00;  $\frac{1}{2}$ bu. \$2.60;  $\frac{1}{4}$ bu. \$1.35;  $\frac{1}{8}$ bu. 75c; qt. 35c; pt. 18c;  $\frac{1}{2}$ pt. 10c.

## Large White Lima Pole Beans

One of the large pole varieties, and is desirable for cooking in both its green and dried state.  $\frac{1}{2}$ bu. \$2.10;  $\frac{1}{4}$ bu. \$1.10;  $\frac{1}{8}$ bu. 60c; qt. 30; pt. 17c;  $\frac{1}{2}$ pt. 10c.

## Lazy Wife's Pole Beans

This famous variety derived its name from immense yield, making it easy to get a supply. It cooks quickly and perfectly stringless if young. Nice snaps. Good dry.  $\frac{1}{8}$ bu. 75c; qt. 35c; pt. 18c;  $\frac{1}{2}$ pt. 10c.

## White Dutch, or Case Knife Pole Beans

A splendid sort to shell while green, or for use in its dry state. Long pods. Will grow amongst corn.  $\frac{1}{2}$ bu. \$2.70;  $\frac{1}{4}$ bu. \$1.40;  $\frac{1}{8}$ bu. 75c; qt. 35c; pt. 18c;  $\frac{1}{2}$ pt. 10.

## White Creaseback Pole Beans

Vigorous grower, wonderfully productive. It is very early white variety, good to cook either green or dry. The pods are entirely stringless; is green color, deep crease in back.  $\frac{1}{8}$ bu. 65c; qt. 32c; pt. 17c;  $\frac{1}{2}$ pt. 10.

## Extra Early Dark Blood Turnip Beets

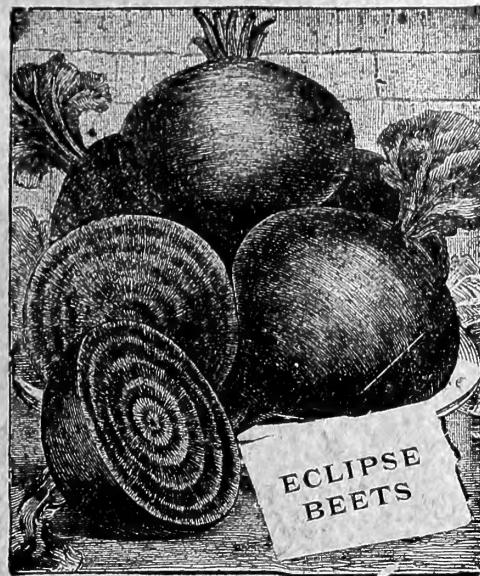

Choice strain of smooth dark Blood Beet. Beautiful color, handsome shape: only a few leaves, very small tap root without any side branches. Smoothest and largest extra early variety. Fine grain, never woody, very best of keepers. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 4c.

## Crosby's Egyptian Beets

Improvement on the old sort; extra early, dark red, finest for market and very smooth. Has but few tops. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 4c.

## Improved Extra Long Dark Blood Beets

By the most careful selection, this has been brought to a high standard of excellence, it being uniform in size and shape and absolutely smooth. It is very sweet, tender, a good keeper. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

## Extra Early Eclipse Beets

Remarkably fine variety. None has risen so suddenly in the estimation of planters. Has but few roots, is round shape and very smooth, bright red, with few tops. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 4c.

## Extra Early Dark Red Egyptian Beets

The earliest of all for both market and the family garden. It is smooth, no side roots; deep red and finest quality, and popular everywhere. It is tender and sweet, and cooks easily and has but few leaves, and it can be grown closely. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 7c; pkt. 4c.

## Golden Tankard Mangel

A distinct valuable variety of golden yellow color and is taking the lead. Exceedingly hardy, and matures early, and is adapted to shallow soils and owing to their stump shape they are easy to dig. Lb. 30c;  $\frac{1}{2}$ lb. 16c;  $\frac{1}{4}$ lb. 9c; oz. 4c; pkt. 2c.

## Imperial White Sugar Beets

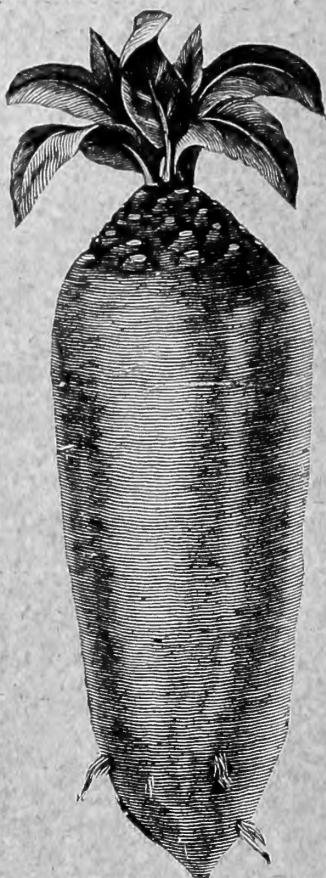

A large sweet choice beet, like the Mangolds. Grown extensively for feeding stock. Contains a large per cent of Sugar, for producing fat and fine flesh. Lb. 28c;  $\frac{1}{2}$ lb. 15c;  $\frac{1}{4}$ lb. 9c; oz. 4c; pkt. 2c.

## Klein Wanzleben Sugar Beets

Fine to feed stock. Lb. 28c;  $\frac{1}{2}$ lb. 15c;  $\frac{1}{4}$ lb. 9c; oz. 4c; pkt. 2c.

## Charleston Wakefield Cabbage

This very valuable sort is only a few days later than the Jersey Wakefield, but is much larger and is called "Washington Wakefield" by many dealers. It is a standard early variety in the South and proves to be one of the best known for clay and heavy soil. Heads are seldom very pointed and are solid, and the finest in its quality. Lb. \$1.35;  $\frac{1}{2}$ lb. 70c;  $\frac{1}{4}$ lb. 40c; oz. 10c; pkt. 3c.

### Great Giant Mammoth Long Red Mangel Beets

Decidedly a monstrous size beet, and of regular shape and quality, nutritious and valuable as a stock food; blood red color, very smooth and decidedly improved strain of Mangels. Plant from first of April to last of June. A good root crop is essential from which to realize a good profit. Lb. 30c; ½lb. 16c; ¼lb. 10c; oz. 5c; pkt. 3c.

### True Jersey Early Wakefield Cabbage

This is one of the most popular of the early varieties. It is large, of finest quality and superior for first early, in both the family and the market garden. Very solid, few leaves; sure to head. Lb. \$1.35; ½lb. 70c; ¼lb. 40c; oz. 12c; pkt. 4c.

### Henderson's Early Summer Cabbage

A popular and valuable variety, now in greatest demand and used quite extensively to follow early, and is popular with market gardeners. It is a sure header, and of a large, round, solid perfect form. Is of superior quality for family or market. Lb. \$1.25; ½lb. 70c; ¼lb. 40c; oz. 10c; pkt. 3c.

### Extra Early Winningstadt Cabbage

A well known, old standard, extra early variety, grown extensively by gardeners, and admirably adapted to the family garden. Quality fine. This variety is so very solid and the leaves so very close, that worms seldom penetrate them at all. Heads are close, firm, with but few leaves. Lb. \$1.25; ½lb. 70c; ¼lb. 40c; oz. 10c; pkt. 3c.

### Long Island Second Early

Some think better than Early Summer; very popular on Muscatine Island. Prices same as Early Summer.

### Mammoth Red Rock Cabbage

The heads are as large as those of the Flat Dutch, and is a deep red color to the center. Highly recommended for its good quality. Is a sure header and excellent long time keeper. Lb. \$1.10; ½lb. 60c; ¼lb. 35c; oz. 10c; pkt. 3c.

### Perfection Drumhead Savoy Cabbage

A late variety of the very best quality. Large size and fine keepers. The best selling sort on account of its quality. Lb. \$1.10; ½lb. 60c; ¼lb. 35c; oz. 10c; pkt. 3c.

### Danish Ballhead Cabbage

Is of medium size, very solid, and no doubt the best keeper ever grown. Grows on long stems and very hardy. Seldom injured by frost. Sells well. Lb. \$1.25; ½lb. 70c; ¼lb. 40c; oz. 10c; pkt. 3c.

### Improved Surehead Cabbage

Produces a very perfect shape head, similar to Flat Dutch. Remarkably uniform in shape and very sure headers. Has but very few loose leaves and fine for shipping or home use. None has finer texture and the quality is unexcelled, while it is now one of the most popular late sorts everywhere. Lb. \$1.30; ½lb. 70c; ¼lb. 40c; oz. 12c; pkt. 4c.

### Gregory's All-Seasons, or Vandergaw Cabbage

A good second early to late Drumhead sort, with many valuable, and distinctive features, such as reliability of heading, and earliness, with a large solid head, and is one of the largest of all medium early varieties. Very rare, solid, and fine quality. Lb. \$1.25; ½lb. 70c; ¼lb. 40c; oz. 10c; pkt. 3c.

### Houseman's Mam Large, Late, Flat Dutch Cabbage

This is sometimes called Mam. Flat Dutch. By many years selecting seed, a perfect header is obtained. It opens very white and crisp, and is tender and splendid keeper. It contains all the valuable qualities to be found in any large late variety. A field of them are uniform in shape and size. Heads large and heavy and sells well in market. Lb. \$1.30; ½lb. 70c; ¼lb. 40c; oz. 12c; pkt. 4c.

### Improved Large, Late Drumhead Cabbage

The old standard late sort, which heads well, and will never outgrow its many good and desirable qualities. The strain is large and beautiful shape. Lb. \$1.10; ½lb. 60c; ¼lb. 35c; oz. 10c; pkt. 3c.

### All-Head Early or Solid South Cabbage

Large, early, very uniform size and shape. Remarkably solid with very few leaves. A succession of plantings will insure all summer and winter use. Splendid keeper. Lb. \$1.35; ½lb. 70c; ¼lb. 40c; oz. 10c; pkt. 3c.

**Premium Late Flat Dutch Cabbage**

A splendid, sure heading, late sort, well known to all our gardeners and farmers, splendid quality. It always sells readily wherever offered on the markets. Good keeper and a profitable variety for growers. It is a good solid sort and opens up white and crisp and cooks easily and tender. Lb. \$1.10;  $\frac{1}{2}$ lb. 60c;  $\frac{1}{4}$ lb. 35c; oz. 10; pkt. 3c.

**Henderson's Succession or Mid-Summer Cabbage**

One of the most perfect in existance. Can be used both as a summer and late variety by successive plantings. It is a quick growing and a sure header, and a great favorite everywhere. I can recommend this for all Market Gardeners use and family gardens. Lb. \$1.35;  $\frac{1}{2}$ lb. 70c;  $\frac{1}{4}$ lb. 40c; oz. 10c; pkt. 3c.

**New Holland or German Export Cabbage**

A medium size, hardy sort, that endures drouth or freezing that would ruin any other variety. Remarkably good long keeper. So solid that small heads weigh as much as the largest ones of other sorts. A great favorite with market gardeners. Lb. \$2.10;  $\frac{1}{4}$ lb. \$1.10;  $\frac{1}{4}$ lb. 60c; oz. 15c; pkt. 5c.

**Henderson's Extra Early Snowball Cauliflower**

None can be earlier, and the quality is excellent, being very tender and delicious when cooked. Fair size and a sure header. The curd is of snowy whiteness. The plants can be grown close together as the leaves set close to the head.  $\frac{1}{2}$ lb. \$7.00;  $\frac{1}{4}$ lb. \$4.00; oz. \$1.00;  $\frac{1}{2}$ oz. 60c; pkt. 10c.

**Extra Early Erfurt Cauliflower**

The greatest favorite with all who have grown it. Almost identical with the Snow Ball. Produces very beautiful and compact perfect heads, of the very finest quality and good fair size. It opens very white and nice. Moist location best.  $\frac{1}{2}$ lb. \$6.00;  $\frac{1}{4}$ lb. \$3.00; oz. 90c;  $\frac{1}{2}$ oz. 50c; pkt. 10c.

**Early Scarlet Horn Carrot**

A very fine early variety, with short stump roots. Good size and fine quality, and good yielders. Sells well in the markets, and are excellent keepers. Lb. 50c;  $\frac{1}{2}$ lb. 30;  $\frac{1}{4}$ lb. 18c; oz. 6c.

**Danvers Carrot**

The standard and most popular for market and family use. The surface is smooth and of a dark orange color. Is a great cropper and very sweet and tender. Rich flavor, delicious. Lb. 50c;  $\frac{1}{2}$ lb. 36c;  $\frac{1}{4}$ lb. 18c; oz. 6c; pkt. 4c.

**Oxheart or Guerande Carrot**

It insures an immense yield on account of broad heavy shape. The table quality is fine, and they sell well in the the city markets. Owing to its short or stump root shape it is easily pulled. Very smooth and most elegant shape. A fine variety for shallow soils. Will become a standard sort. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 18c; oz. 6c; pkt. 3c.

**Long White Belgian Carrot**

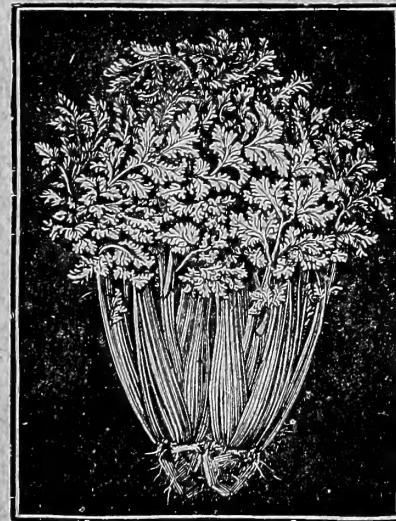

Large, long, white: productive sort. Is grown largely to feed stock. Is also a fair table sort. Cut and feed with meal or grain. Yields an immense crop. Lb. 35c;  $\frac{1}{2}$ lb. 20c;  $\frac{1}{4}$ lb. 12c; oz. 4c; pkt. 2c.

**Mammoth Orange Carrot**

A very large orange yellow sort and desirable for feeding stock. It is very productive and keeps remarkably well. It makes a healthful and nutritious food for stock of all kinds. 5lb. \$1.90; lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 5c; pkt. 3c.

**White Plume Celery**

Not a variety could gain in favor more rapid than this. Planters claim this will blanch more readily than others. Called a self blanching variety. Tie it up with matting and draw the soil well to plant. Lb. \$1.25;  $\frac{1}{2}$ lb. 70c;  $\frac{1}{4}$ lb. 40c; oz. 12c; pkt. 4c.

**Giant White Solid Celery**

An improved strain of White Solid: very crisp, tender, delicate, rich flavor, and is very compact growing, and is a good seller in any market. Growers say that it always blanches perfectly. Lb. \$1.25;  $\frac{1}{2}$ lb. 65c;  $\frac{1}{4}$ lb. 35c; oz. 10c; pkt. 3c.

**Giant Pascal Celery**

A wonderful fine variety with extremely large, thick solid stalk and entirely stringless. The immense stalks are crisp, brittle, snapping like glass. Is nearly self blanching. Lb. \$1.25;  $\frac{1}{2}$ lb. 70c;  $\frac{1}{4}$ lb. 40c; oz. 12c; pkt. 4c.

### Golden Self-Blanching Celery

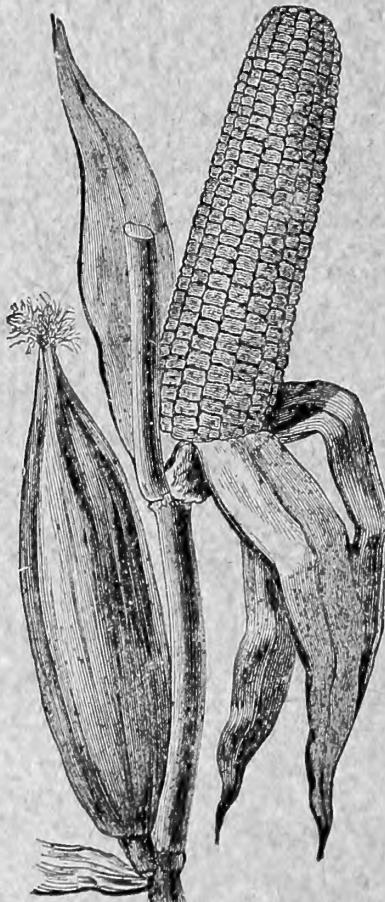

A very distinct valuable variety. It has large straight vigorous stalks, and does not require but little banking up to blanch. Very solid, crisp, delicate, nutty flavor. Golden waxy tinted inside and it is now very popular everywhere. It makes a very healthful and delicious salad. By reading instructions in different catalogs you will see it is not a difficult matter to grow good celery successfully everywhere. Lb. \$1.60;  $\frac{1}{2}$ lb. 80c;  $\frac{1}{4}$ lb. 45c; oz. 15c; pkt. 5c.

### Short Green or Early Fram Cucumber

This is a standard sort for pickling works and also for early family use for slicing and pickles. If planted at intervals of two weeks a continuous supply can be had the whole season. Lb. 75c;  $\frac{1}{2}$  lb. 40c;  $\frac{1}{4}$ lb. 25c; oz. 6c; pkt. 4c.

### Gherkins or Burr Cucumber

Round shape, prickly variety, with vine resembling the watermelon. Used largely in the southern states for pickles, and called West India Gherkins.  $\frac{1}{4}$ lb. 30c; oz. 10c; pkt. 4c.

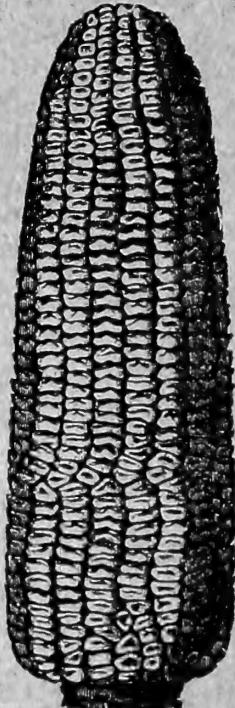

### Extra Early Cory Sweet Corn

Earliest, medium size, quick growing, good quality, stands drouth well, and is so very early that two crops can be grown in a season. Stalk is short, and ears are produced very low. Finest for gardeners and home use. Bu. \$3.50;  $\frac{1}{2}$ bu. \$1.80;  $\frac{1}{4}$ bu. 90c;  $\frac{1}{8}$ bu. 50c; pt. 20c.

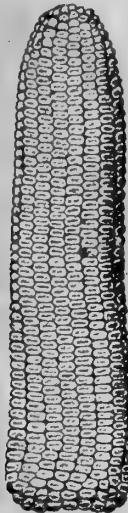

### Select White Evergreen Sweet Corn

This is a decided improvement on all the other strains of Evergreen. The ear is pure snow white, and the kernels are very long and slender and very much shrunken when ripe. The stalks are strong and vigorous growing and the ears are large and well filled out to the tips. It is remarkably fine eating, being a deliciously sweet variety.  $\frac{1}{2}$ bu. \$1.60;  $\frac{1}{4}$ bu. 85c;  $\frac{1}{8}$ bu. 45c; qt. 28c; pt. 16c;  $\frac{1}{2}$ pt. 12c.

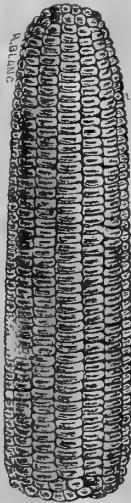

### Mammoth Sugar Corn

Largest strain of Evergreen, sweet and delicious. Produces well. Yields big supply of fodder. Bu. \$3.00;  $\frac{1}{2}$ bu. \$1.60;  $\frac{1}{4}$ bu. 90c;  $\frac{1}{8}$ bu. 50c; qt. 28c; pt. 16c;  $\frac{1}{2}$ pt. 9c.

### Early Minnesota Sweet Corn

Standard for early market. Ears of good size. Desirable for family. We regard it as very early and productive, reliable for all general culture. Bu. \$3.50;  $\frac{1}{2}$ bu. \$1.80;  $\frac{1}{4}$ bu. 90;  $\frac{1}{8}$ bu. 50; qt. 25c; pt. 14c;  $\frac{1}{2}$ pt. 8c.

### Country Gentlemen Sweet Corn

A grand, new, sweetest, richest sort yet known. It is large size, beautiful shape, pearl white color, and is without doubt the par-excellence of all eating varieties. It yields a large supply of ears and forage.  $\frac{1}{4}$ bu. 80c;  $\frac{1}{2}$ bu. 45c; qt. 28c; pt. 16c;  $\frac{1}{2}$ pt. 9c.

### Jersey Pickling Cucumber

A very productive variety and one of the finest for pickling and an excellent variety for slicing. Early, fine shape.  $\frac{1}{2}$ lb. 40;  $\frac{1}{4}$ lb. 22c; oz. 7c; pt. 4c.

### Improved White Spine Cucumber

Well established market variety and has been much improved by careful selections. Very early, bright glossy green and is nice for pickles. Immense bearer and is quoted as Boston Market Pickling, by many firms. Finest for market gardeners and shippers. Lb. 70c;  $\frac{1}{2}$ lb. 40c;  $\frac{1}{4}$ lb. 20c; oz. 6c; pt. 4c.

### Westerfield's Chicago Pickling Cucumber

A popular strain of greatest value for pickles and slicing. Very uniform in size and shape and produces a great quantity of cucumbers. This fine sort is used extensively by pickling works. Its vines bear continuously; if fruit is picked and not permitted to ripen their fruit. Lb. 60c;  $\frac{1}{2}$ lb. 35c;  $\frac{1}{4}$ lb. 20c; oz. 6c; pt. 4c.

### Extra Early Long Green Cucumber

A choice selected strain of Long Green with white, crisp flesh and pleasant flavor. It is a rapid grower and very productive in any soil or climate. It is nearly all meat with very few seeds for its size. Beautiful color and attractive. Lb. 90c;  $\frac{1}{2}$ lb. 50;  $\frac{1}{4}$ lb. 35c; oz. 10c; pt. 5c.

### New York Purple Egg Plant

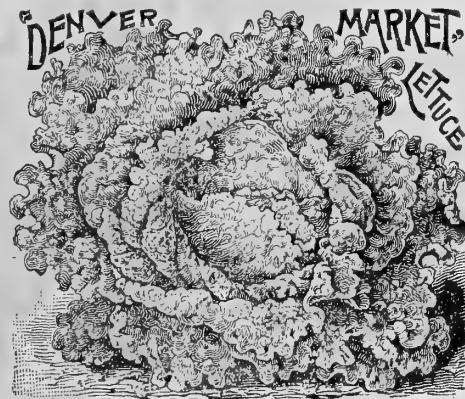

Improved variety, of a deep purple color, large size, and finest quality. Fine market sort everywhere. Magnificent shipper.  $\frac{1}{2}$ lb. 50c; oz. 15c; pt. 4c.

### Hanson Lettuce

This is without doubt the largest variety in cultivation. Rapid growing, crisp, tender, and very nice. It stands the sun and heat remarkably well without becoming tough. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 18c; oz. 6c; pt. 3c.

### Buttercup Lettuce

Is a grand German variety, equally good for spring, summer and winter use, or early forcing; forming large, solid heads with a beautiful foliage. Crisp, tender, and delicate in flavor. Lb. 70c;  $\frac{1}{2}$ lb. 35c;  $\frac{1}{4}$ lb. 20c; oz. 10c; pt. 3c.

### Denver Market Lettuce

This is prized very highly for forcing in hotbeds and for its earliness and very crisp, tender, and excellent quality. A leading market sort. Leaves are wavy, or curled, and presents a beautiful effect. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 18c; oz. 6c; pt. 3c.

### Tomhannock Lettuce

This gives general satisfaction, because it will grow quickly; ready to cut early, and remains in an edible condition a long time before it runs to seed. Inner leaves are almost white; outer ones tinged reddish bronze. Crisp and tender.  $\frac{1}{2}$ lb. 18c; oz. 6c; pt. 3c.

### Landreth's Forcing Lettuce

Strong and rapid grower, and finest for forcing in hotbeds and greenhouse. Is free from rot, and keeps rich, crisp and tender, without wilting. Lb. 60c;  $\frac{1}{2}$ lb. 35c;  $\frac{1}{4}$ lb. 20c; oz. 10c; pkt. 5c.

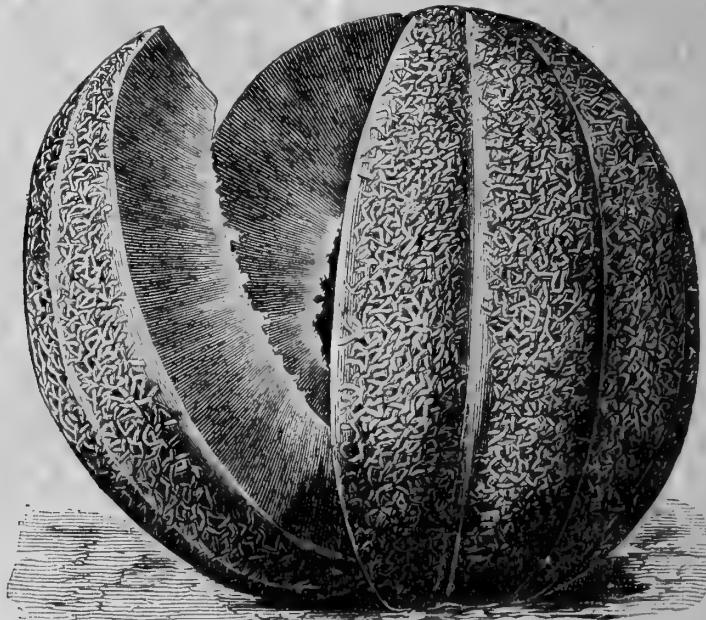

### Dwarf Essex Rape

A forage plant of great value, which can be sown at any time from March to August; at the rate of about 5 to 6 pounds per acre. Makes a grand pastureage for sheep, as well as for other stock. It can be cut up and shocked for winter feeding, if permitted to grow to its full size. Is not injured by frost, and will furnish feed until winter. 100 lbs. \$6.00; 50 lbs. \$3.25; 25 lbs. \$1.75; 10 lbs. 80c. Mail, per lb. 18c.

### Black Seed Simpson Lettuce

A new and very distinct variety, and is a superior variety for the earliest market. It is a light, delicate green color; almost white, of exquisitely fine quality, crisp, tender, and used extensively by gardeners for forcing in hotbeds. It is considered one of the earliest and most valuable in cultivation. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 18c; oz. 6c; pkt. 3c.

### Osage Musk Melon

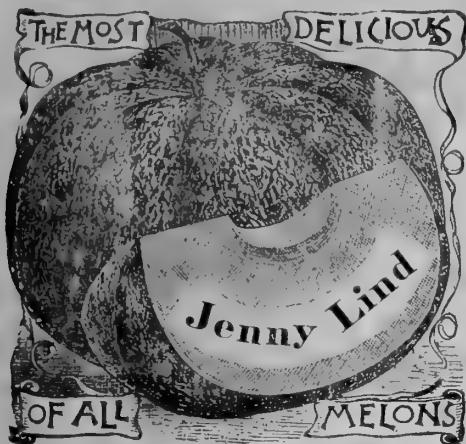

A valuable melon, for both market, and the home garden. All the rage in Chicago, and most of the other western markets. Dark green, with the very finest, juicy, sweet, and thick, golden-yellow, or salmon color flesh. They do not show bruises in handling and shipping, as it is very dark green. Lb. 80c;  $\frac{1}{2}$ lb. 45c;  $\frac{1}{4}$ lb. 25c; oz. 8c; pkt. 4c.

### Chicago Market Musk Melon

A very large nutmeg variety; of uniform size and shape; well ribbed, deep meated, finely netted, green flesh; sweet and juicy. Fine flavor, seed cavity small, never rots. Lb. 80c;  $\frac{1}{2}$ lb. 45c; oz. 8c; pkt. 4c.

### Early Hackensack Musk Melon

Decidedly a great improvement on the old Nutmeg Melon. Popular in eastern markets. Wonderfully productive, and good size; very early, deliciously juicy and sweet. Fine for both home and the market. Most beautiful melon of all. Lb. 60c;  $\frac{1}{2}$ lb. 35c;  $\frac{1}{4}$ lb. 20c; oz. 6c; pkt. 3c.

### Burpee's Netted Gem Musk Melon

This is highly esteemed for its earliness, exquisite flavor, fine quality, sweet and one of the finest for shipping in baskets to distant markets. Very popular in every city market, and one of the best for home garden. Lb. 60c;  $\frac{1}{2}$ lb. 35c;  $\frac{1}{4}$ lb. 20c; oz. 6c; pkt. 3c.

### True Jenny Lind Musk Melon

Very early, and not large, but is just the right size to cut in half and eat from the hand with a spoon. It is a great favorite with all gardeners. It is deliciously sweet, fine, rich, and juicy. Is a standard market sort in all the eastern states, and one of the very finest for family use. Lb. 80c;  $\frac{1}{2}$ lb. 45c;  $\frac{1}{4}$ lb. 25c; oz. 8c; pkt. 4c.

### Rocky Ford Musk Melon

An improved strain of Netted Gem, growing more oblong in its shape. It is the finest sort for shipping in baskets. It is oval in shape, and is slightly ribbed and finely netted. Has thick flesh, and is very sweet and fine flavor. Is even in shape, and very productive. Lb. 60c;  $\frac{1}{2}$ lb. 35c;  $\frac{1}{4}$ lb. 20c; oz. 6c; pkt. 3c.

### Burrell's Gem Musk Melon

Often called Admiral Toga, Hoodoo, Defender, Rust Resisting, &c. It is splendid to ship in baskets. Is medium size, thick meat, small cavity, with deliciously sweet flesh, of a reddish orange color and eatable close to the rind. It is nicely netted and oblong shape and only slightly ribbed. Great in market. Lb. 60c;  $\frac{1}{2}$ lb. 35c;  $\frac{1}{4}$ lb. 20c; oz. 6c; pkt. 3c.

### Ice Cream or Peerless Watermelon

This is a great favorite for family use. It is a superior variety in every respect, and has beautiful crimson core, and is fine grained, and it cannot be surpassed in excellence. It is very prolific, sweet, and the rind is thin. Medium size, productive and good cropper. Lb. 45c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 5c; pkt. 3c.

### Kolb Gem or American Champion Watermelon

This is the great shipping melon of the western states. Very large and bears transportation without injury, and remains in a sound condition for two months. Splendid quality, red core, & very sweet and sells well. Lb. 35c;  $\frac{1}{2}$ lb. 20c;  $\frac{1}{4}$ lb. 12c; oz. 4c; pkt. 2c.

### Kleckley Sweets or "Monte Cristo" Watermelon

This is a pretty shape, large, long, dark green melon, with bright red flesh and undoubtedly sweetest and most delicious variety ever introduced. The superior quality of this melon will make it sell in market ahead of all others. Core is fine grain; crisp and juicy and cannot be sweetened. Lb. 60c;  $\frac{1}{2}$ lb. 35c;  $\frac{1}{4}$ lb. 20c; oz. 7c; pkt. 4c.

### Ferry's Sweetheart Watermelon

New, large, oval shape, distinct variety; very heavy and has a mottled light and dark green surface. Thin rind but tough; flesh bright red, tender and sweet. Vigorous grower and very productive; fine shipper and excellent keeper. Early. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 5c; pkt. 3c.

### Blue Gem or New Ileberg Watermelon

A cross of the Kolb Gem on Duke Jones. Best shipper and keeper ever grown. Finest quality, and sells well in all markets. It is one of the largest and most showy. It resembles the "Triumph," "Nabob," and "Black Boulder," and Diamond. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 5c; pkt. 3c.

### Dixie Watermelon

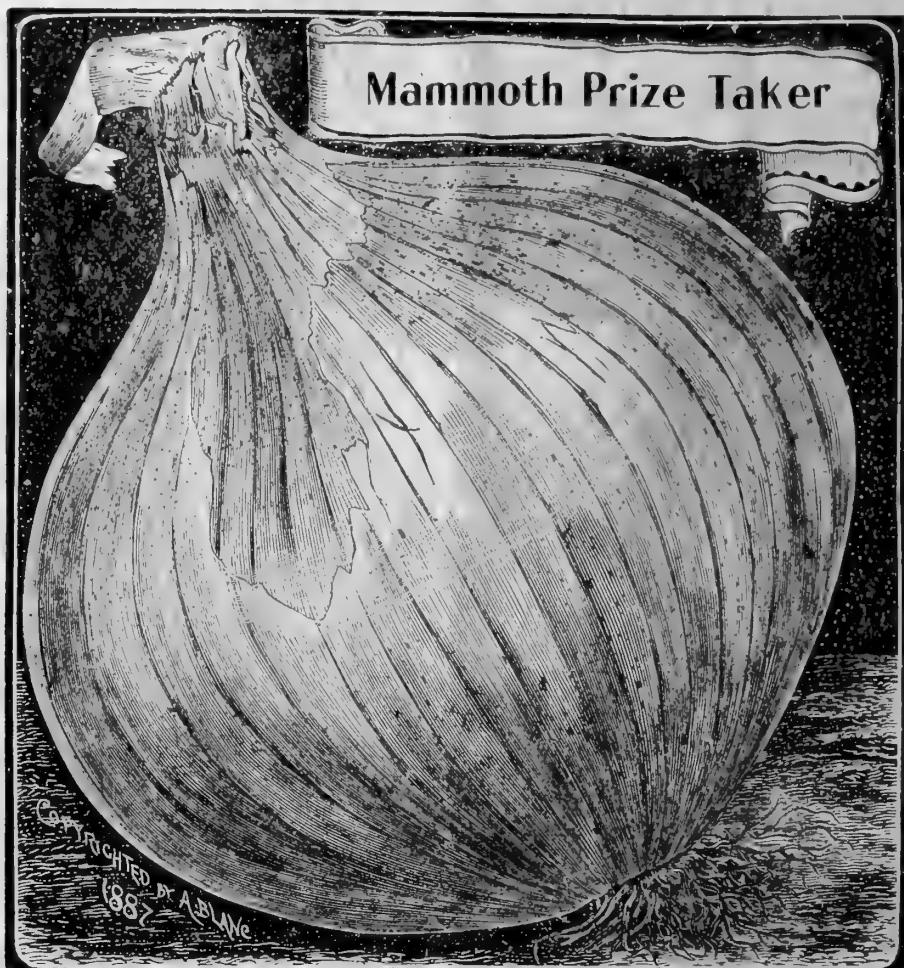

A valuable acquisition. None better ever introduced. Thin, tough rind, with bright scarlet flesh; fine flavor; sweet and delicious; excellent keepers; very productive and a strong grower; the vines rooting at every joint. Never lacks nourishment. Splendid shipper, and fine for local market or home. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 18c; oz. 6c; pkt. 3c.

### Striped Gipsy or Georgia Rattlesnake Watermelon

One of the largest and finest varieties in our markets. Bears carriage well for long distance shipping. The rind is thin, and the core is a beautiful bright red, and quality is sweet and delicious, and shape is attractive. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 5c; pkt. 3c.

### Alabama Sweet Watermelon

This new melon has created great surprise in several states, and Texas don't want any other. It is a large and beautiful shape melon, and the skin is tough and is not injured by handling, nor in shipping. It is one of the best and sweetest sorts ever grown. It is well adapted to the north, because it is not as late as many of the other large varieties. Every garden should have a supply. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 18c; oz. 7c; pkt. 4c.

### Mammoth Prize Taker

A very large, popular variety, of a light golden color and beautiful shape. Flesh is white, tender, and mild, and has a delicate flavor. It is a sure cropper, and the best selling variety in every market. Is a good keeper and succeeds in all climates. The skin is thin and flesh is transparent. Lb. \$1.25;  $\frac{1}{2}$ lb. 65c;  $\frac{1}{4}$ lb. 35c; oz. 10c; pkt. 5c.

### Large Yellow Globe Danver's Onion

A good old standard yellow sort, which ripens up all at a time, and are good size, and always in market demand, because they are excellent keepers and of the finest quality. Flesh is very white and is not so strong as to be disagreeable. Its size is most desirable and the shape is very attractive. Lb. \$1.25;  $\frac{1}{2}$ lb. 65c;  $\frac{1}{4}$ lb. 35c; oz. 10c; pkt. 5c.

### Mammoth Silver King or Giant Onion

The largest white variety ever introduced, and is tender, mild and early. Great size and attractive shape, will place it in the front rank. They are so very mild, and so pleasant to the taste, they can be eaten like an apple. The skin is clear silver-white. Lb. \$1.50;  $\frac{1}{2}$ lb. 80c;  $\frac{1}{4}$ lb. 45c; oz. 12c; pkt. 5c.

### Flat Yellow Danver's Onion

This will always be planted largely for market, as it is a sure cropper. Is very productive and an excellent keeper. All the seed is grown from first-class, large selected Onions. About 4 to 5 pounds of seed should be sown to the acre to insure an even stand, and with thorough culture a magnificent crop can be produced. Mark the rows 12 to 15 inches apart, and thin the plants to 4 inches apart in the row. Best American grown. Lb. \$1.25;  $\frac{1}{2}$ lb. 65c;  $\frac{1}{4}$ lb. 35c; oz. 10c; pkt. 5c.

### Southport Red Globe

This is Southport strain of Red Globe and is large fine grain, tender, mild, good keepers. Most handsome and saleable variety in market. Rapid grower, and yields immense crops and so hardy that ordinary frost does not injure them. A grand sort. Lb. \$1.25;  $\frac{1}{2}$ lb. 65c;  $\frac{1}{4}$ lb. 35c; oz. 10c; pkt. 5c.

### Large Red Wethersfield Onion

This is the greatest, grandest, surest cropper; most productive and most popular sort that is cultivated in the western and middle states. Excellent keeper, and sells well everywhere. Good large marketable size, and the shape is very attractive. Sow four pounds per acre, in drills; rows 12 to 15 inches apart. Cultivate thoroughly, and keep free from weeds and a good crop can always be obtained. Gardeners who have a cold or heavy soil, should use manure freely, as it tends to lighted and warm the soil very well. We prefer to sow the seed as soon as the ground can be worked, but have grown excellent crops when sown from the middle to the last of May. Sow from March to Aug., 30 pounds per acre for sets. Lb. \$1.25;  $\frac{1}{2}$ lb. 65c;  $\frac{1}{4}$ lb. 35c; oz. 10c; pkt. 5c.

### White Adriatic Barletta Onion

Earliest of all and is small, delicate, flavored and mild sort, and is a most desirable sort for pickling, but it is very fine and tender for table use. The skin is a silvery-white, and as thin as tissue paper. It grows quick, matures early and should be in every garden. Lb. \$1.60;  $\frac{1}{2}$ lb. 85c;  $\frac{1}{4}$ lb. 45c; oz. 12c; pkt. 5c.

### Carter's Premium Gem Peas

A very early, green wrinkled sort, growing 12 to 15 inches, bearing large well-filled pods with sweet delicious peas. All market gardeners use this sort extensively for first. It is selected, and improved strain of the McLeans Little Gem. It is one of the very finest earliest for the family garden.  $\frac{1}{2}$ bu. \$3.85;  $\frac{1}{4}$ bu. \$1.95;  $\frac{1}{8}$ bu. \$1; qt. 40c; pt. 22c;  $\frac{1}{2}$ p. 12c.

### Sugar Cup or Hollow Crown

Is a magnificent variety, and is a well known sort everywhere, and is one of the best for general cultivation. Is large size, and has long smooth roots, and is a strong grower, and is valuable for market, table use and feeding stock in winter and spring when vegetable food is required for health of people and stock. Lb. 35c;  $\frac{1}{2}$ lb. 20c;  $\frac{1}{4}$ lb. 12c; oz. 5c; pkt. 3c.

### Extra Early Tom Thumb or Strawberry Peas

This is a variety that is well known to all planters, as a hardy, dwarf sort, that will bear the earliest planting. Sow at intervals of a few days to have a succession of crop. Our stock of this is very short.  $\frac{1}{2}$ bu. \$3.85;  $\frac{1}{4}$ bu. \$1.95;  $\frac{1}{8}$ bu. \$1; qt. 40c; pt. 22c;  $\frac{1}{2}$ pt. 12c.

### Large White Marrowfat Pea

A standard late variety for market and family supply and also valuable for sowing with oats for feeding stock. A rank grower, and yields well. It is a quick grower and is a very prolific bearer. Bu. \$3.25;  $\frac{1}{2}$ bu. \$1.65;  $\frac{1}{4}$ bu. 85c;  $\frac{1}{8}$ bu. 45c; qt. 30c; pt. 17c;  $\frac{1}{2}$ pt. 9c.

### Landreths' Extra Early Peas

A very valuable, improved strain of the famous earliest sort once known as Landreths' Extra Early. It is exceedingly productive, and pods well filled. Ready for table in 45 days. Earliest of all known sorts. Grows about 18 to 24 inches high in good soil. The whole crop will mature evenly and is well adapted for market gardeners use. Bu. \$4.70;  $\frac{1}{2}$ bu. \$2.40;  $\frac{1}{4}$ bu. \$1.25;  $\frac{1}{8}$ bu. 65c; qt. 35c; pt. 18c;  $\frac{1}{2}$ pt. 10c.

### Pride of the Market

Great big peas in a great big pod and a grand variety for main crop. Is robust in habit; strong stalks, bears full from top to bottom. A very hardy sort and will bear early planting. Is a very sure variety to please any planter.  $\frac{1}{2}$ bu. \$3.85;  $\frac{1}{4}$ bu. \$1.95;  $\frac{1}{8}$ bu. \$1; qt. 40c; pt. 22c;  $\frac{1}{2}$ pt. 10c.

### Extra Early Alaska

Extra early, prolific, rapid growing, sweet sort; desirable for both family and market. Claimed to be as the fast sailing ship "Alaska," quickest on record.  $\frac{1}{2}$ bu. \$2.70;  $\frac{1}{4}$ bu. \$1.40;  $\frac{1}{8}$ bu. 75c; qt. 35c; pt. 18c;  $\frac{1}{2}$ pt. 10c.

### Bliss' Abundance Peas

A bushy sort with a dark green foliage. It bears large well filled pods and is of the finest quality. It grows about two feet high and is hardy and very prolific.  $\frac{1}{2}$ bu. \$3.85c;  $\frac{1}{4}$ bu. \$1.95;  $\frac{1}{8}$ bu. \$1; qt. 40c; pt. 22c;  $\frac{1}{2}$ pt. 12c.

### Bliss' American Wonder Peas

An extra choice dwarf variety. Choice American variety, first introduced by B. K. Bliss, of New York. One of the earliest and best of the sweet, wrinkled sorts. Is very short, less than a foot high. Quality is equal to large sorts.  $\frac{1}{2}$ bu. \$3.85;  $\frac{1}{4}$ bu. \$1.95;  $\frac{1}{8}$ bu. \$1; qt. 40c; pt. 22c;  $\frac{1}{2}$ pt. 12c.

### Large Telephone Peas

The grandest, largest, strongest growing, sweetest, handsomest, finest for the table or market. It bears 16 to 18 large pods on each stalk and it is often called the green wrinkled marrows. Bu. \$7.25;  $\frac{1}{2}$ bu. \$3.65;  $\frac{1}{4}$ bu. \$1.85;  $\frac{1}{8}$ bu. 95c; qt. 40c; pt. 22c;  $\frac{1}{2}$ pt. 12c.

### First and Best Peas

About medium in the height and its habit of growth. It is extra early, and all fills up at once, making, it very desirable for the first supply in market. Quality is very fair. Quite hardy and can be planted far earlier than the wrinkled sorts. Very productive and rapid growing. Bu. \$4.70;  $\frac{1}{2}$ bu. \$2.40;  $\frac{1}{4}$ bu. \$1.25;  $\frac{1}{8}$ bu. 65c; qt. 35c; pt. 18c;  $\frac{1}{2}$ pt. 10c.

### Mammoth Pepper Ruby King

Monstrous large, productive sort of recent introduction. Desirable for Mangoes. Bright, glossy, ruby-red color, and largest known. A great large, mild, sweet, attractive variety and valuable acquisition.  $\frac{1}{4}$ lb. 50c; oz. 15c; pkt. 4c.

### Mammoth Sweet or Mango Pepper

Is a very popular and a magnificent large sort, of beautiful brilliant, glossy red color, thick flesh, and is not pungent, and is very fine for making Mango pickles. They sell well in the market when green.  $\frac{1}{2}$ lb. 90c;  $\frac{1}{4}$ lb. 50c; oz. 15c; pkt. 4c.

### Mammoth Golden Queen Pepper

The largest and finest novelty I have seen. The peppers are easily grown in any soil. This is a bright waxy, golden yellow color, and is so very mild one can eat them as salad with pepper and vinegar.  $\frac{1}{4}$ lb. 40c; oz. 12c; pkt. 3c.

### Small Pod Chili Pepper

A little pungent red sort and very sharp and is used in making pepper-sauce, and many kinds of pickles. It grows in clusters and is beautiful.  $\frac{1}{4}$ lb. 40c; oz. 12c; pkt. 4c.

### Large Bell or Bull Nose Pepper

This is a very large, mild, and extremely productive sort. The skin is bright glossy red, and the flesh is very thick. They sell readily in all markets while green, for making Mango Pickles. They are very easily grown and profitable. Lb. \$1.40;  $\frac{1}{2}$ lb. 75;  $\frac{1}{4}$ lb. 40c; oz. 12c; pkt. 3c.

### Long Red Cayenne Pepper

Well known pungent and sharp, fine variety used in pickles, also for feeding birds and to make pepper sauce.  $\frac{1}{4}$ lb. 40; oz. 12c. pkt. 3c.

### Sugar Pumpkin

A medium size, handsome variety, of a deep orange color. Is very prolific and a fine keeper. Very sweet and sugary, hence its name. Very fattening for stock and rich, delicious and fine for pies. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 18c; oz. 6c; pkt. 3c.

### Mammoth Sugar Pumpkin

One of the finest sorts grown; much larger than the regular sugar or pie pumpkins, fully as sweet. Lb. 75c;  $\frac{1}{2}$ lb. 40c;  $\frac{1}{4}$ lb. 25c; oz. 10c; pkt. 5c.

**Yankee Field Pumpkin**

The old large yellow pumpkin. Lb. 25c;  $\frac{1}{2}$ lb. 15c; oz. 5c; pkt. 3c.

**Brightest Long Scarlet Radish**

A new, very long, beautiful vivid scarlet, or carmine, shading to pure snow-white at the tip. Fine forcing sort; tender, crisp, not woody, fine for both market and family garden. A distinct and very desirable sort. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

**Vick's Scarlet Globe Radish**

This is recommended highly for its earliness and is one of the best forcing sorts and finest for open ground. A rapid grower; scarlet color, crisp and tender and very juicy. It will stand a great amount of heat and dry weather without ever becoming pithy, strong or spongy. The amount of foliage is small compared with the other varieties. Is a handsome variety. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

**Long, Pure White Strassburg Radish**

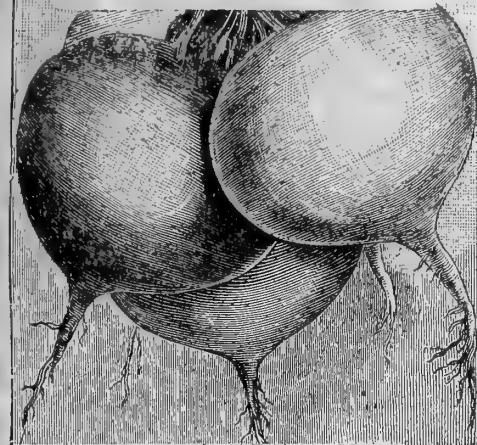

This flesh is beautiful snow-white, tender and is pleasant to the taste. Grows quick, crisp, tender and is ready for the table, or market, at any stage of growth. 2lb. 65c; lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

**Long Scarlet Short-Top Radish**

It is a long, bright scarlet, very smooth, short top, and a standard variety with families and gardeners. Can be planted early, and it sells readily in any market, and is always of good quality. 2lb. 75c; lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

**Icicle Radish**

A very fine new white variety and the earliest of the long snowy-white sorts yet produced. It has but few tops making it very desirable for forcing. The roots continue brittle, mild and crisp, until full grown. They have a peculiar and delicious freshness not to be found in other sorts. Very rapid growing, tender, with a delicate fine grain. Finest for market or family use. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 20c; oz. 10c; pkt. 5c.

**Golden Globe RADISH**

Beautiful golden yellow. A large, tender variety, which stands drouth and heat the best of any variety. Makes rapid growth and excellent variety at any stage of growth. Gardeners and all admire it, and they find it a very profitable sort to grow for market. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

**Giant White Stuttgart Radish**

Extra early, of enormous size; is excellent for forcing in frames, rapid growing, quality is superb. It stands heat and does not get pithy, or tough. Fine for both the family and market garden. 2lb. 75c; lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 5c; pkt. 3c.

**White Turnip or Box Radish**

Splendid, tender, crisp and fine for family, or to force in hot-beds, or frames for earliest market. An admirable variety for gardeners to bunch with scarlet sorts. All varieties are very low in price. Can plant freely. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

**Chartier Radish**

A very large, beautiful crimson-red variety; shading to pure snow-white at tip. Fine for forcing early or later, and remains crisp, tender, not woody, fine for market or family. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

**White Vienna or Lady Finger Radish**

Delicate, brittle, tender, crisp and early. Beautiful shape and a rapid grower. They are pure white with a fine, mild, sweet flavor. Splendid for both market and family garden. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

**Early Scarlet Turnip Radish**

This is well known as an excellent variety of the finest variety, of the greatest value for gardeners to plant for first early sort to meet the greatest demand for the earliest market, when all vegetables are scarce and prices high. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

**Long Black Spanish Winter Radish**

These are so intensely purple that they appear almost a black. Sow them in July and August and use them in the fall and winter. Very delicious. They can be stored in the cellar and will keep as well as Turnips. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

### Mammoth White Winter Radish

Sometimes called "Cal. Mam. winter,"—"White Russian Winter," &c. Grows to an enormous size, often over a foot long. Is pure white, crisp and brittle. Sow in July and August. Is in use during fall and winter. Can be stored in cool place for winter. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

### China Rose Winter Radish

Bright rose color, shading lighter toward the point. Sow the seeds late and store them the same way as is the method for storing turnips for the fall and winter use. They usually sell well in the fall and winter markets. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; pkt. 3c.

### Bloomsdale Savoy Spinach

Owing to its peculiarly crimped savory leaf, it will lie lighter and keep much longer, after cutting, than any other variety that can be found. It is very quick growing and excellent quality and is well liked by every grower. Lb. 30c;  $\frac{1}{2}$ lb. 18c;  $\frac{1}{4}$ lb. 10c; oz. 4c; pkt. 2c.

### Round Leaf Spinach

Splendid variety for greens and fine for market in spring, summer and fall, and is easily grown. Early greens is a necessary article of food for the preservation of ones health. Seeds can be sown as intervals during the season, for a succession of a crop. 4lb. \$1; lb. 30c;  $\frac{1}{2}$ lb. 18c;  $\frac{1}{4}$ lb. 10c; oz. 4c; pkt. 2c.

### Mammoth Sandwich Island Salisfy

Strain of the largest Vegetable Oyster in cultivation. Is delicious when boiled or fried, or mashed, then fried and made into fritters. Very hardy and can be left in the ground. Lb. 75c;  $\frac{1}{2}$ lb. 40c;  $\frac{1}{4}$ lb. 25c; oz. 8c; pkt. 4c.

### Perfect Gem Squash

Small, yet desirable for both summer and winter. Wonderfully productive. Flesh is fine grain, and cooks dry. It is sweet, rich and delicious flavor. Often bears 20 on a vine. Lb. 80c;  $\frac{1}{2}$ lb. 40c;  $\frac{1}{4}$ lb. 22c; oz. 8c; pkt. 4c.

### True Hubbard Squash

The old standard late variety for fall, winter and spring use, as it is an excellent keeper. Its quality is rich, sweet and dry. It has a very hard shell and bears any amount of handling without injury. Sells well in all markets. Lb. 60c;  $\frac{1}{2}$ lb. 35c;  $\frac{1}{4}$ lb. 20c; oz. 7c; ptk. 4c.

### Crookneck Summer Squash

The grandest, largest variety of Summer Squash ever introduced. Its magnificent size, shape and appearance makes it highly desirable for shipping to distant markets as well as for home trade. The beautiful golden color, must have tendency to make it supplant all other sorts of the summer varieties on the market. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 18c; oz. 6c; ptk. 3c.

### Mammoth Chili Squash

A monstrous size variety and is very good quality and is good keeper. The color is a beautiful Orange yellow and is very nice for family use, and is a very nutritious and profitable food for stock. It is a well known native of South America, but is well adapted to the northern states. Lb. 70c;  $\frac{1}{2}$ lb. 40c;  $\frac{1}{4}$ lb. 25c; oz. 8c; ptk. 5c.

### Ponderosa or Henderson's No. 400 Tomato

This is one of the largest, and a vigorous grower, with firm skin and flesh, and a good shipper. Remarkably smooth and solid, with very few seeds. Quite early for so large sort, and quality is good. One is enough for a meal.  $\frac{1}{2}$ lb. 70c; oz. 20c; ptk. 5c.

### Livingston's Perfection Tomato

This is exactly what its name indicates. It is smooth, large, solid, and of finest quality. Beautiful color, and is a grand variety for canning, market and family use. It ripens well up to the stem, skin is tough and good shipper. Lb. \$1.30;  $\frac{1}{2}$ lb. 70c;  $\frac{1}{4}$ lb. 40c; oz. 12c; ptk. 3c.

### Livingston's Favorite Tomato

A choice, admirable sort, and one of the most desirable yet introduced. All of the desirable qualities are claimed for this that are prominent in any of the best smooth sorts. Lb. \$1.30;  $\frac{1}{2}$ lb. 70c;  $\frac{1}{4}$ lb. 40c; oz. 12c; ptk. 3c.

### Spark's Earliana Tomato

A very popular variety, of good size for one so early. Market gardeners use of this quite heavily for first early. Is smooth and solid and splendid quality. Bright red color. Lb. \$1.30;  $\frac{1}{2}$ lb. 70c;  $\frac{1}{4}$ lb. 40c; oz. 12c; ptk. 3c.

### Livingston's Beauty Tomato

Is early, smooth, firm, deep red color, and bears shipping well, splendid for canning and market, and fine for family use. Its beautiful dark red color makes a great demand for market and the canning companies prefers this. Lb. \$1.30;  $\frac{1}{2}$ lb. 70c;  $\frac{1}{4}$ lb. 40c; oz. 12c; ptk. 3c.

### Stone Tomato

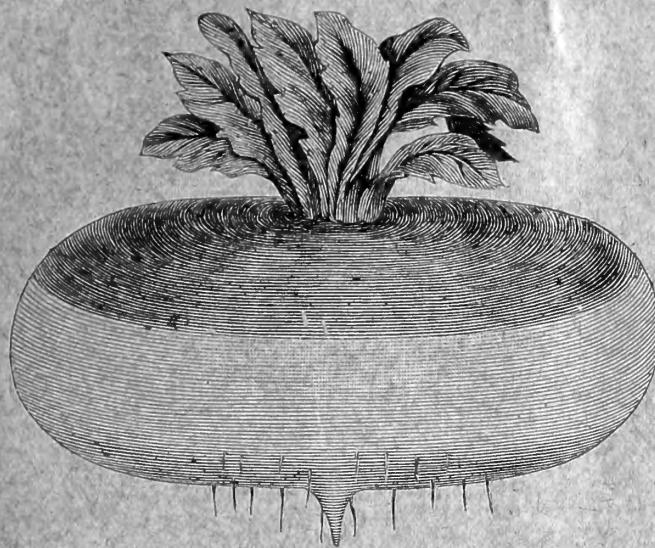

A large, smooth, solid variety, with firm flesh and ripens evenly to the stem, without hard core. Bright scarlet color and excellent for canning and market. Lb. \$1.30;  $\frac{1}{2}$ lb. 70c;  $\frac{1}{4}$ lb. 40c; oz. 12c; ptk. 3c.

### Extra Early Milan Turnip

A very valuable new variety, and fully a week earlier than any other. Medium size, excellent quality, and a red, or purple top and short leaves. Pure white flesh, fine grain, cooks easy, and is a good keeper. Lb. 50c;  $\frac{1}{2}$ lb. 30c;  $\frac{1}{4}$ lb. 18c; oz. 6c; ptk. 3c.

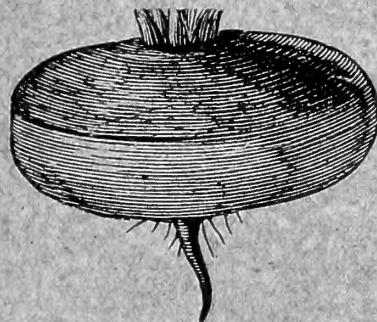

### White Egg Turnip

Good size, nice for both early and late. Thin white skin, fine grain, sweet, mild flavor and a rapid grower. Solid and firm, beautiful shape, tender, and an excellent keeper. Lb. 40c;  $\frac{1}{2}$ lb. 25c;  $\frac{1}{4}$ lb. 15c; oz. 6c; ptk. 3c.

### Long White Cowhorn Turnip

A great favorite with everybody. It is very sweet and it is fine for family use and feeding stock. An excellent keeper and yield very well. It is quite a rapid grower. The flesh is very white, fine grain good quality. It is a good renovator for the soil as it roots deeply and is very loosening to the soil. Lb. 40c,  $\frac{1}{2}$ lb. 25c,  $\frac{1}{4}$ lb. 15c, oz. 6c, pkt. 3c.

### Flat Dutch Turnip

Magnificent for a general crop for family use, and feeding stock. Are splendid keepers, productive and fine quality. Sow early for summer, late for fall keeping. Lb. 40c,  $\frac{1}{2}$ lb. 25c,  $\frac{1}{4}$ lb. 15c, oz. 6c, pkt. 3c.

### PATENT Seed Corn Grader

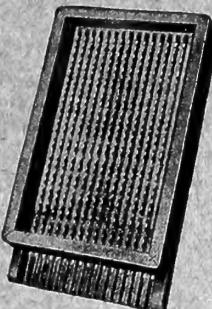

Simplest, Perfect Grader.

Most Rapid (12 bushels per hour).

Absolutely Guaranteed.

Endorsed by ALL Corn Growers and Planter Manufactures.

Price, (double Screen) \$1.50

### Purple Top Strap Leaf Turnip

The old well known standard variety for table use and general crop for feeding to stock. Splendid keepers; productive, fine for market. Sow 2 to 3 lbs. per acre. Lb. 40c,  $\frac{1}{2}$ lb. 25c,  $\frac{1}{4}$ lb. 15c, oz. 6c, pkt. 3c.

### Large Purple Top, White Globe Turnip

Large, splendid variety for family use, or market and feeding stock. It is so very beautiful and attractive shape and magnificent size, that it sells on sight. Great yielder and enormously productive and the finest quality. Lb. 40c,  $\frac{1}{2}$ lb. 25c,  $\frac{1}{4}$ lb. 15c, oz. 6c, pkt. 3c.

### White Egg Turnip

Good size, good for both early and late. Thin white skin, fine grain, sweet, mild flavor and a rapid grower. Solid and firm, beautiful shape, tender and an excellent keeper. Lb. 40c,  $\frac{1}{2}$ lb. 25c,  $\frac{1}{4}$ lb. 15c, oz. 6c, pkt. 3c.

### Skirving's Purple Top Ruta Baga

A well known hardy, yellow variety, good for table and for feeding stock. One of the very largest varieties and a profitable cropper. Easily grown. Lb. 40c,  $\frac{1}{2}$ lb. 25c,  $\frac{1}{4}$ lb. 15c, oz. 6c, pkt. 3c.

## IOWA GROWN CLOVER SEED (Common Red)

We are selling at this date, Feb. 1st., \$9.50; while we have some fancy at \$10.50. Our seed is cleaned so as to pass the Iowa State Law which is very rigid. Clover Seed just from the machine, or cleaned by a common fanning mill, is fully 10 per cent. dirt and foul weed seed. Only by re-cleaning in a regular seed cleaner can these seeds be taken out. We frequently find 15 to 25 KINDS of weed seed in a bushel of Clover. Some of these are prohibited by the Iowa Law and some are allowed to pass, only in the proportion of 2 to 4 per cent.

Few farmers realize what it is to buy Clover seed right from the machine, or even when it has been run through a fanning mill. This takes out only the lighter dirt. When Clover is selling at \$9.00 per bushel, and you buy 2 pounds of dirt and weed seed to the bushel, your seed is costing you \$9.30 per bushel, besides seeding your land to noxious weeds. No clover huller or fanning mill made, cleans seed fit for sowing. We frequently take as much as 3 pounds of trash from a bushel of fanning mill cleaned seed. Bu. \$9.50,  $\frac{1}{2}$  bu. \$4.75,  $\frac{1}{4}$  bu. \$2.45.

### Mammoth Clover

Same price as above Common Red.

### Alfalfa Clover Seed

Our seed is raised on non-irrigated land and is better adapted to this part of the country than seed from the irrigated parts. Bu. \$11.50,  $\frac{1}{2}$  bu. \$5.75,  $\frac{1}{4}$  bu. \$2.95. Pound by mail 35c.

### White Clover

By mail, 35c. per lb.

### Manshury Barley

Improved strain of standard six-row bearded barley. The standard market variety by which all are graded, and therefore the most popular bearded sort. It is an early variety, very strong, stiff straw, stands up and stools well. It bears large well-filled heads of plump-berried grain. By freight, pk. 40c., bu. \$1.25.

### Swedish Select Oats

An early variety distributed by the U. S. Department of Agriculture and very highly recommended by them. It warrants the praise bestowed upon it, and is really a very valuable variety. Grain is usually very heavy and plump. It is hardy and especially satisfactory in the north. Pk. 40c., bu. \$1.00.

## Northern Grown German Millet

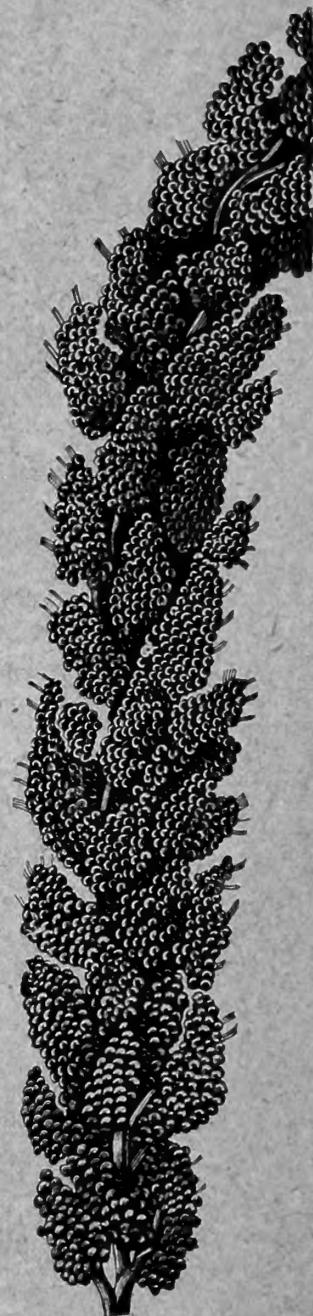

Best for rich land, but produces fine hay on poor soil, but shorter.

Bu., 1.50.

## SOUTHERN GROWN GOLDEN OR GERMAN MILLET

Large sort, good for old soil. Grows large on rich or new land.

Bu., \$1.75.

## EARLY JAVA WHEAT

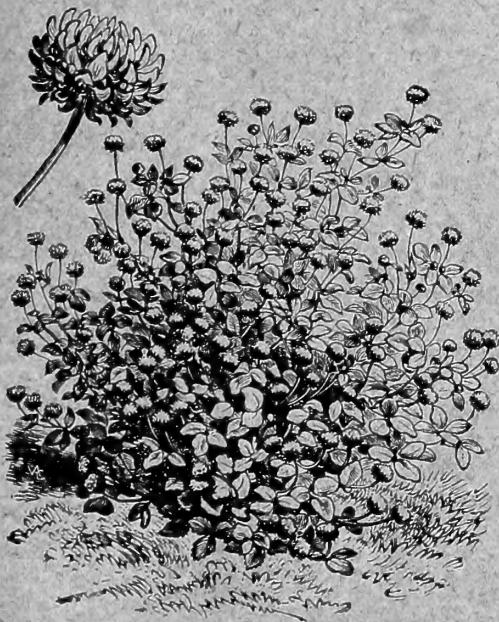

This is a bearded variety which for five or six years past has given far better satisfaction in central Iowa than any other variety and wherever introduced it is driving all other sorts out. The farmers are delighted with it. It is a new variety of spring wheat, about ten days earlier than Velvet Chaff or other standard sorts, and thus escapes the extreme hot weather so injurious to small grain. It is usually ready for harvest as early as winter wheat, and therefore desirable to sow on land where winter wheat has partially failed. A good crop can this way be secured from fields which would otherwise be unprofitable and the wheat would be all right for milling purposes, but would not do for seed. Yields in this locality ordinarily about 25 bu. per acre. By freight, or express, not prepaid, per bu. \$1.25.

### Macaroni, or Drum Wheat

(Kubanka.)—A great money maker to the farmers of the northwest. Yields 80 per cent greater than other varieties of wheat. One farmer reported 49 bushels per acre. It does especially well in the semi-arid plains. It seems to be always a sure crop and will mature in shorter season than any other wheat and is therefore very desirable for Minnesota, Dakota, Manitoba and the northwest. Yields also profitable crops in Kansas, Iowa, Oklahoma and Texas. Does well on good soil, but the yield is larger and quality better when grown on poor land. The grains are very hard and glossy, often translucent, and rather large. Heads compactly formed and are bearded. Hardy and not attacked by smut or rust. Sow early in the spring about  $1\frac{1}{2}$  bu. per acre. Per lb. 25c, 3 lbs 60c, postpaid. By freight or express, not prepaid, pk. 65c, bu. \$1.65, 2 bu. or more at \$1.55 bu. 10 bu. for \$15.00.

### Ideal White Hulless Barley

Is an ideal that pleases all who try it. The heads are large and well filled with big, plump kernels which are hulless and of great value for feeding. Weighs 60 to 65 pounds to the measured bushel, while ordinary barley weighs only 48 pounds. The straw is very stiff and strong. It is the handsomest variety that we know of. The kernels shell out without the hulls and are the prettiest and handsomest white-berry, plump and oval in shape, that has ever been grown. It is not a malting barley, but can be used for feeding only, and as a fattening feed for hogs it has no equal. Is a vigorous grower and can be sown after all the other grain is sown and it will mature before wheat or oats. Per lb. 25c, 3 lbs. 60c, postpaid. By freight, pk. 65c, bu. (48 lbs.) \$1.90, 2 bu. or more at \$1.70 per bu. 10 bu. or more at \$1.50 per bu.

### Alsike Clover

Hardy, fine for pastures. Sweet and makes grand honey. Bu. \$10.50,  $\frac{1}{2}$  bu. \$5.25,  $\frac{1}{4}$  bu. \$2.75,  $\frac{1}{8}$  bu. \$1.50. Mail, lb. 35c.

### Choice Iowa Grown Timothy

Sow 12 lbs. per acre. Cut in bloom. Bu. \$4.75,  $\frac{1}{2}$  bu. \$2.50,  $\frac{1}{4}$  bu. \$1.35.

This is larger than the common variety. Bu. \$1.50,  $\frac{1}{2}$  bu. 80c.  $\frac{1}{4}$  bu. 50c.  $\frac{1}{8}$  bu. 30c. Mail, qt. 20c.

In ordering FARM SEEDS—Don't forget to remit 20c for  $2\frac{1}{2}$  bushel Bag.

This is less than the cost of bag to us.

# SEED CORN

WE HAVE A FINE LOT OF SEED CORN !

All our Seed Corn is on the Cob—  
We have no Shelled Corn to offer.

ARE YOU SATISFIED WITH RAISING 35 to 50  
bushels of Corn per acre, when your neighbors  
are gathering 65 to 85 bushels?

There is a reason for this. It is a matter of taking a pencil and figuring what you are losing by not changing your Seed Corn by planting the same strain that your father did—or that your neighbor has. Of course it is good corn—but NOT GOOD ENOUGH. If you get 8 bushels of Seed Corn from your neighbor at a cost of \$8.00 and plant 50 acres you will probably gather 2,500 bushels. If you buy 8 bushels of our YELLOW DENT at a cost of \$18.00 at a low estimate you will gather 65 bushels per acre, a gain of 750 bushels for the 50 acres, or at 50c per bushel, \$375.00. Deducting the cost of Seed Corn in both instances, you have a net gain of \$365.00. This is no guess work. Hundreds of our customers have voluntarily told us that they raised 75 to 85 bushels per acre, and in one instance, 92 bushels per acre. The better the corn the more fodder and the faster it is husked.

**Breeding Seed Corn.**—We have no pedigree or bred-up Seed Corn. It is a well known fact that corn two or three years removed from the breeding process will produce a much larger crop and ripen earlier than bred-up corn. You take the bred-up corn and change the location, the surroundings, the conditions, in a word the climatic changes, and it is not the yielder it will be two or three years after by careful selection; and furthermore, the bred-up corn will not ripen as quickly as the selected corn.

The endeavor should be—not to raise too much corn to the acre, but a corn that will be sure to ripen, what you want is a good yielder that will mature in good shape before frost.

 Write us for prices on Seed Corn.

Destroys bugs, beetles, green fly, slugs, caterpillars, lice, worms, insects. Prepaid lb. 25c. Not prepaid, 25 lb. \$1.25, 10 lb. 50c, 5lb. 30c.

#### SLUG SHOT Kills the Potato Bugs.

It is a cheap powder, destructive to insects that prey upon vegetation. It destroys vermin and leaves the plant unharmed.

#### SLUG SHOT.

Kills Black Fleas on Turnips and Radishes. Kills Canker Worms, Cut Worms around Cucumbers, Melons and Beans.

Kills Green Flies on Roses and other Flowers; Slugs on Quinces and Pears.

#### Mammoth Russian SUNFLOWER

Farmers should plant liberally of this as it produces an abundance of seeds, which is far more valuable for feeding poultry than any other food. It can be grown anywhere; in places where other crops have made only a partial stand. They grow enormously large. Bu. \$1 70, ½ bu. 90c, ¼ bu. 50c, ¼ bu. 30c. Mail, qt. 18c, pt. 10c, ½ pt. 6c.

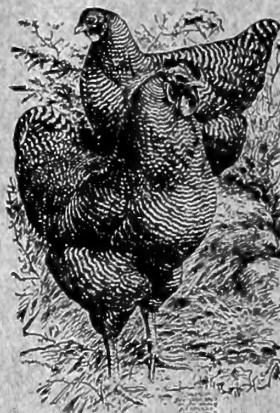

# FLOWER SEEDS ALL VARIETIES

Cheap in price but not in quality. We buy flower seed in bulk and fill packages at store. Many varieties—2 packets for 5c; others, 3 for 10c.

# Poultry Supplies

Feed your hens something that will make them lay all winter.

It pays to raise chickens, if you feed them right. They should have, during the cold months, the same food, as near as possible, as they can pick up in the summer when at large.

# Pure Crushed Oyster Shell

A SALT WATER  
SHELL

which produces the  
Egg Shell

—the GREATEST egg producer on earth. Oyster Shells, as shown by the reports from the United States Agricultural Department, as well as reports of the Agricultural Departments of the different States, produce more eggs than any other grit.

Feed crushed Oyster Shells and supply the demand for eggs. There is money in it.

#### "RARVA" MEAT MEAL.

Is pure lean-beef fibre, carefully dried while fresh, and will keep indefinitely. Its thorough dryness, and the entire absence of any taint or unpleasant odor, makes it a most excellent form of food for chickens. It is excellent for hopper feeding, and may be mixed and fed in a mash to great advantage. It contains 85 per cent protein and 7 per cent fat, and is clean and free of all preservatives and chemicals.

#### COARSE AND FINE BONE.

Consists of Ground Beef Bone, thoroughly dried and free from grease. It is more economical and better in every way than raw beef bone. Rich in Bone Phosphate of Lime, which is so necessary for making good egg shells and for building up the frame of a chicken. Should be placed in liberal quantities in a clean, dry dry place, easily accessible to the chickens at all times.

#### BIRD SEED.

We are the only firm in this city who carry a fresh stock at all times of Hemp, Rape, Canary and Sunflower Seed. We are prepared to sell in wholesale or retail quantities.

# Spray Pumps and Spraying Fluids

IT IS TIME TO SPRAY

WHEN THE BUDS BEGIN TO SWELL  
—that is the BEST time—that is the critical time.

All successful Fruit Growers  
find it necessary to spray.

DON'T PUT IT OFF TOO LONG!

We have a full line of barrel, bucket or knapsack SPRAY PUMPS.
